

Jawad Sami Ul Haq

Full Stack Software Engineer | .NET / React

jawadsamiulhaq.code@gmail.com • +92 347 8615710 • Punjab, Pakistan

jawadsamiulhaq.vercel.app • linkedin.com/in/jawad-sami-ul-haq

Full-stack developer with professional experience in C#, ASP.NET Core, and SQL Server, plus React from independent and freelance projects. Comfortable owning a feature end to end, with an emphasis on code that scales cleanly and stays easy for a team to maintain.

Work Experience

Software Engineer

Present

Exceleron Communications — Lahore, Pakistan

- Build and maintain a client portal for field operations management on .NET, ASP.NET Core, EF Core, and SQL Server.
- Own the site status tracking module, a region-aware approval workflow with bulk Excel/JSON import and dashboard reporting.
- Manage internal project and task tracking through a workflow-driven lifecycle, handling assignment, closure, and deadline-based escalation across related tasks.
- Maintain the team's support ticketing system and manage user authentication and access control, including MFA and role-based permissions.

Freelance Web Developer

Aug 2024

PPC Evolutions (Direct Client) — Multan, Pakistan

- Built a responsive marketing site for an Amazon PPC advertising agency, spanning services, process, and case-study pages to drive lead generation.
- Designed the site's contact/audit request form as its main lead-capture tool, alongside testimonial and social-proof sections.
- Adapted a provided template into a client-specific site with HTML, CSS, and JavaScript, then handled domain deployment, analytics, and Google indexing.

Projects

Lumina

Production-style ecommerce platform with an admin dashboard, dynamic catalog management, and integrated Stripe payments.

React • TypeScript • ASP.NET Core • EF Core • SQL Server • Tailwind CSS

UAF CGPA Calculator

Jul 2023 – Aug 2023
